About Me

After completing my degree in Architecture, I became interested in becoming a Full Stack developer. Therefore, I joined the Full stack Web Developer Codecamp by Software Park Thailand in 2023. I am an eager learner and able to grasp new concepts quickly. I also have a strong interest in creativity and innovation for the future.

Skills

Programming Language

- HTML
- CSS
- Javascript
- SQL

Framework & Library

- Reactjs
- Nodejs
